

YOTO CARD GUIDE

The Fort Smith Public Library now has Yoto Cards!

Yoto cards are credit card-sized devices that play audio content on a Yoto Player or through the Yoto app on a phone. They are used to access a variety of pre-recorded stories, music, podcasts, and other audio content.

Check out up to 6 Yoto Cards at a time with your library card. Cards are available for two week checkouts.

If you own a Yoto Player, simply insert the Yoto Card into the player and enjoy!

Don't own a Yoto Player? No problem! You can scan the card straight to your phone, using the Yoto app.

[Download it from the Apple App Store \(iOS\).](#)

[Download it from the Google Play Store \(Android\).](#)

The app looks like this!

If you have an iPhone XS or newer, or a compatible Android phone, simply hold the Yoto Card against your phone, and then follow the instructions on screen. You don't need the Yoto app open for this to work.

If you have an iPhone 7, 8, or X, you'll open the Yoto app, login or select "Look around the app" and navigate to "Library" on the bottom of the screen. Tap "Scan a card" and follow the instructions.
